

# Cruise control, function (schematic presentation)

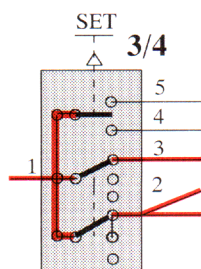

## Setting speed

Switch set to ON. SET-button pressed and released.  
Speed above 35 km/h (20 mph) and brake and/or  
clutch pedal not pressed.  
(In addition, for automatic transmission,  
gear selector lever not in N-position)

## Maintaining set speed

Switch set to ON. Speed above 35 km/h (20 mph)  
and brake and/or clutch pedal not pressed.  
(In addition for automatic transmission,  
gear selector lever not in N-position)

## Resuming set speed

Switch set to RESUME.

The vehicle resumes the previously set speed.
